DETAILED ACTION

1. Claims 21-40 have been examined.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 21-30, drawn to determining when a mobile user becomes stationary and sending content to the stationary user, classified in class 705, subclass 14.
 - II. Claim 31-40, drawn to a mobile user preselecting criteria, a mobile user selecting to receive advertisements when moving, classified in class 705, subclass 14.

Inventions I, and II are based on different sets of Independent claims. Group I involves determining when a mobile user becomes stationary and sending content to the stationary user. Group II involves a mobile user preselecting criteria, a mobile user selecting to receive advertisements when moving.

Because these inventions are distinct for the reasons given above and the search required for Group I is different than the search required for either Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Charles W. Griggers (Reg. No. 47,283) at (770)933-9500 on December 12, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3622

Applicant must respond in writing as to which Invention (Group I or Group II) the Applicant elects to be examined.
